## Departmental and Staff Awards and Acknowledgments

- **Monica Ballon-Kalinowski**: Outstanding Service as Curriculum Co-Chair, Leadership Santa Barbara County Palmer - Unsung Hero Award, UCSB Professional Women’s Association
- **Molly Steen**: Staff Citation of Excellence Award, UCSB Staff Assembly
- **Career Services**: William J. Villa Service to Students Departmental Award Nomination, Student Affairs
# Director’s Note

I am pleased to provide you with the 2013-2014 Annual Report for Career Services at UC Santa Barbara. It has been yet another incredible year for our team, with a number of accomplishments and innovations. It was truly a year of change and transition highlighted by the completion of a two-year organizational development plan. This plan resulted in the hiring of a new Associate Director, Emily White, a new Assistant Director and Coordinator of Graduate Student Services, John Coate, and new professional counseling and administrative team members.

We had several team members receive awards and acknowledgements for their extraordinary work on campus or in the local community. Career counselor Monica Ballon-Kalinowski received the Outstanding Service Award for her involvement as Curriculum Co-Chair for Leadership Santa Barbara County. Our senior artist was acknowledge with the Unsung Hero Award by UCSB’s Professional Women’s Association. The Staff Citation of Excellence Award was given to Molly Steen in celebration of her outstanding achievements and dedication to the university. Lastly, the department was honored with a nomination for the William J. Villa Service to Students Departmental Award. I am really proud of each staff member for their determined commitment to serving students.

Here are just a few of the highlights that convey the impact our office has had on and off campus:

- With 81% of the graduating class employed and 27% enrolled in graduate school within twelve months of graduation (versus 68% for graduates nationwide - NACE), it is quite evident that our office’s commitment to career and professional development is having a substantial impact on students.

- With a pledge to develop focused initiatives targeting the career development needs of liberal arts/humanities, transfer, and international students, our team created focused programs and workshops, developed strategic marketing efforts, collaborated with academic courses, and provided new online resources for these populations.

- The newly formed Career Assessment Team (CAT) participated in extensive assessment and evaluation training offered by the Division of Student Affairs. CAT’s first assessment initiative examined the impact of career counseling appointments on student confidence and ability to develop an action plan.

- Strategic efforts with the Alumni Association, the Office of International Students & Scholars, and the Educational Opportunity Program have resulted in stronger partnerships, staff collaborations, joint programming, and employer development opportunities all of which directly benefited our student population.

- Committed to innovative technology, our office made a number of enhancements that helped make it easier for students to access career-related information online, link to our office on social media, and connect virtually with employers.

- In support of experiential education, our office streamlined our Internship Certificate Program, developed new resources and policies around unpaid internships for students and employers, and created an internship collaborative with on-campus and UC-wide counterparts. Most notably, we established the inaugural Internship Scholarship to support students pursuing internships.

I would like to sincerely thank all the generous donors and partners (faculty, staff, parents, alumni and employers) for your commitment and dedication to our vision and mission. Your support has enabled us to broaden our impact and reflect the values of Student Affairs at UC Santa Barbara - scholarship, leadership, and citizenship. Looking ahead, our team is enthusiastic about working diligently and resourcefully to positively affect the futures of UCSB students in all their endeavors.

Best regards,

Ignacio Gallardo
Director, Career Services
**General Services**

Our career professionals continued to engage students in their career development in one-on-one and in group sessions. This year, we saw significant increases in students both participating in drop-in advising (+33%) as well as students registering for individual appointments (+39%). It’s clear that students made it a priority to visit our office regularly to invest in their own professional growth.

**Classes**

Our office has historically taught 4 sections of our career planning class CNCSP110 (one each quarter), and 2 sections of INT64, our Freshman Summer Start Program career and major introductory class offered during summer session B. Beginning in 2012-2013, we no longer taught CNCSP110 during Winter Quarter which resulted in significantly lower enrollment numbers.

WORKSHOPS

We continue to offer at least 25 professional skill building workshops per quarter, some of which we clustered as a marketing strategy. We also presented a number of opportunities for students to meet individually with admissions representatives to learn about the ideal candidate characteristics that improve chances of getting accepted into graduate and professional schools. As a result of the decline in student attendance, we’ve developed an assessment and evaluation process in order to examine the effectiveness of, and make improvements to, future workshops and industry panels.

Our clusters include:

♦ **Graduate School Week** – a series of specialized admission panels and workshops covering the application processes for areas of study such as Law, K-12 teaching, Psychology and Counseling, Health Professions, Human Resources, and Business. The week’s culminating event is the Graduate & Professional School Fair, featuring more than 100 programs from around the country.

♦ **International Education Week** – a series workshops and information sessions designed specifically to help students considering options to study, teach English, or work/intern abroad.

♦ **Internship Week** – a week-long series of industry panels focused on introducing a wide variety of internship opportunities.

♦ **“Careers In…”** – a series of panels bringing professionals to campus to talk about their experience in a variety of careers and industries.

♦ **Career Survivor Day** – a half day series of workshops directed at seniors needing last minute career advising prior to graduation.

20. Careers In Technical Environmental Fields (For Environmental Studies, Earth Science And Geography Majors)
21. Careers In Beer
22. Careers In Fashion And Business
23. Academic Training Workshop (For J-1 Students)
24. Opt/Cpt Workshop (For F-1 Students)
25. Academic Training Workshop (For J-1 Students)
Our career fairs were a huge success last year! We hosted eight events, seven of which connected students to employers and graduate programs and one with on-campus employment. We saw substantial increases in participation by both students (+12%) and employers (+14%). A key phrase in our mission statement states that we “serve as the bridge between their college experience and employment or graduate school”. Nothing exemplifies this more effectively than the thousands of connections we helped to facilitate between students and hiring employers or graduate and professions school recruiters.

Student groups who co-sponsored each major fair (each group received a $1000 stipend):

- Fall Career Fair Day 1 (Engineering, Science, & Technology)- Los Ingenieros & National Society of Black Engineers
- Fall Career Fair Day 2 (All Majors)- Alpha Kappa Psi
- Winter Career Fair- Delta Sigma Pi
- Spring Career Fair Day 1 (Engineering, Science, & Technology)- Hermanos Unidos
- Spring Career Fair Day 2 (All Majors)- Hermanas Unidas
Our online job and internship database, GauchoLink, allows companies and organizations to post positions exclusively for UCSB students. While internships (-.3%) and full-time job postings (+3%) remained steady compared to last year, we saw a substantial increase in part-time opportunities (+14%), especially in the local area. Our dynamic team of Employer Services professionals is currently developing a comprehensive job and internship development strategy to increase engagement with local and national employers with the goal of increasing the number of postings from the previous year.

**On-Campus Interview Program**

Each year, employers from a variety of industries incorporate on-campus interviews into their hiring plans. Hundreds of students benefited from interviewing with top organizations in one of our 13 interview rooms. We enjoyed more employers coming to campus (+6% from last year) and students participating (+36%) than we’d seen since 2010-2011. Undoubtedly, employers viewed on-campus interviews as an important aspect of their strategic recruiting efforts.

SERVING THE CAMPUS

Our office supported a wide variety of departments and student organizations in 2013-2014. We co-sponsored events, advised student organizations and provided a wide variety of programs, workshops, and lectures. Our outreach efforts include the following:

CAMPUS COLLABORATIONS

Career professionals collaborated with, shared expertise, and provided specialized career programming to the following campus departments:

- Alumni Association
- Associated Students
- Center for Science & Engineering Partnerships (CSEP)
- Children’s Center
- College of Engineering
- Community Affairs Board
- Counseling & Psychological Services
- Disabled Students Program
- Department of Anthropology
- Department of East Asian Languages & Cultural Studies
- Department of Biological Sciences
- Department of Chemistry
- Department of Communications
- Department of Earth Sciences
- Department of Environmental Studies
- Department of Economics
- Department of Exercise and Sports Studies
- Department of Geography
- Department of Global and International Studies
- Department of Physics
- Department of Linguistics
- Department of Mathematics
- Department of Psychological & Brain Sciences
- Department of Statistics and Applied Probability
- Education Abroad Program
- Educational Opportunity Program
- Environmental Affairs Board (EAB)
- Freshman Summer Start Program
- Gervitz Graduate School of Education
- Graduate Division
- Housing and Residential Services
- Intercollegiate Athletics
- Materials Research Lab (MRL)
- Office of Admissions
- Office of Financial Aid & Scholarships
- Office of International Students & Scholars
- Office of Student Life
- Orientation Program
- Pre-Health Advising
- Public Affairs and Communications
- Resource Center for Sexual & Gender Diversity
- Student Health
- The Women, Gender, & Sexual Equity Department
- Transportation and Parking Services
- UCDC Program
- University Center, Conference Services
- University Center, Catering
- Writing Program
## Student Organizations

Career staff provided special career programming to the following student organizations:

- Accounting Association
- Actuary Club
- Adventure Programs *
- Alpha Delta Pi *
- Alpha Kappa Psi * +
