

**Employer:** Internet Brands, Inc.

**Title:** Web Development/Computer Science Intern

**Description:**

Los Angeles based Internet Brands, Inc. is currently seeking Web Development/Computer Science Interns to join our development team. We are looking for innovative CS interns who love the Internet and social media. You will work directly with development teams on consumer facing websites and have a mentor to support specific projects. Your work will be challenging, fast-paced, and intellectually stimulating. This is a great internship opportunity if you have strong analytical skills, unwavering commitment to quality, a collaborative work ethic, and cutting-edge technical skills.

**Projects:**

- \* Collaborate with staff to design and code new features and enhancements
- \* Assist with all aspects of the product lifecycle, from specifications through QA
- \* Work with team to identify and fix bugs

**Requirements:**

- \* Completed or working towards a B.S. or M.S. in Computer Science or related field
- \* Strong programming skills (Java, .Net, PHP)
- \* Strong CSS skills and some web design skill preferred
- \* Excellent problem solving skills, self-motivated
- \* Strong familiarity with Web 2.0 / Social Networking websites

The internship position is available starting June and start/end date is flexible with academic calendar. The intern will work in our Los Angeles, CA office with a fun, energetic staff and team of interns from Southern California. Rock star interns will have the opportunity to apply for regular full-time web development roles.

Our company is working on exciting new developments, and will offer a solid education to interns of all levels, so please apply if you have the desire to contribute to a team and strong attention to detail. This is a very exciting opportunity for young professional and we look forward to working with the intern to grow their skills in our company.
